

THE INTERNATIONAL CENTRE

Coronavirus (COVID-19) Update

Mississauga, ON – March 4, 2020 - The International Centre is committed to the health, safety and well-being of our clients and visitors. We are paying close attention to direction from the Region of Peel Public Health, Public Health Agency of Canada and the World Health Organization. Peel Public Health has assessed the public health risk associated with Coronavirus (COVID-19) and has determined the risk is low for the region.

The International Centre is open and upcoming events are taking place as planned.

In addition to the Centre's regular health and safety procedures, the following additional measures will be implemented to help prevent the spread of the virus.

- The Centre has installed alcohol-based hand sanitizer stations in key high-traffic areas throughout the facility
- The Centre will provide enhanced cleaning efforts in all lobbies, common areas, food service areas and Hall and Conference Centre washrooms
- Continue to use the best cleaning disinfectants effective against the virus.
- Washroom signage has been installed reminding attendees of hygiene recommendations.

We will continue to monitor the situation closely and will advise you of any updated plans.
